

PRESS RELEASE 20 October 2010

VAIL WILLIAMS APPOINTS PORTUS ONLINE:

Leading real-estate advisers opt for modern flexible benefits scheme

Vail Williams has appointed Portus Online to create their flexible benefits scheme.

The real-estate advisers researched the market to find a provider who could meet their needs. The main aims were to engage employees, improve communication and get a better return on investment.

Stuart Dawson, head of human resources at Vail Williams, says: "Portus Online were the outstanding choice for us. They have an impressive list of clients, the project is progressing effortlessly and it's already clear that they'll do whatever they can to help us achieve our objectives."

As advised by Portus, the process began with a staff survey. "We asked employees what kind of package they'd like," says Dawson. "Now, in response to feedback, we're firming up the flexible benefits we're going to offer."

The scheme will go live in late autumn, with easy access for all staff to view their own online accounts. "We're looking forward to the launch of our new benefits portal," says Dawson. "It means staff can take control of their benefit choices."

Jonathan Bruce, sales director at Portus Online, comments: "Vail Williams recognise the value of their people to their business. We're really pleased to be working with them to create an online flexible benefits solution to fit their ambitions and budget."
